

DESTINATION

LOS ANGELES

A world center for business, trade, entertainment and tourism, Los Angeles is California's most populated city and the nation's No. 2 most populated city. L.A. is often called the "Creative Capital of the World," as one in every six L.A. residents works in a creative industry. Blanketed by arguably the best year-round weather in the entire United States, Los Angeles' magical lure of finding fame and fortune by heading west is still very strong today.

Neighboring mountains outside the L.A. basin make it possible during certain times of the year to ski in the morning and then surf before the sun goes down. Its famous shoreline is a calling for bicycle enthusiasts, swimmers, surfers and avid walkers, and nearby Orange and San Diego counties offer much to see and do. Work, live and be inspired in Los Angeles!
